SWUNG INTO ETERNITY!

Four Murderers Pay the Penalty of Their Bloody Crimes on the Scaffold at New York.

NEW YORK, Aug. 23.—For the first time in the history of the Tombs, four murderers expiated their crimes on the scaffold within a few minutes of each other this morning.

The situation of the gallows, on each of which two men were hanged, was such that an interval of five minutes was necessary between the two executions. Though the structures were a considerable distance apart, the noise of the drop of the gallows which first sent Packenham and Nolan out of the world must have been plainly heard by Lewis and Carolin.

The four men went into eternity firm in the belief that their salvation was in God.

The scene in the little chapel, where mass was said this morning, and the subsequent farewells between the men, were very impressive. The two Catholics priests, who administered consolation to the men during their last hours, stayed with them until the last minute.

Preparations for the conducting of the first of the men to the gallows were commenced about 6:30. At 6:35, the jury, composed entirely of newspaper men, was placed in position. At 6:44, Carolin and Lewis were taken across the prison yard to the boys' prison, where they were pinioned. Carolin was puffing hard at a big cigar.

As soon as Lewis and Carolin had been transferred, the sheriffs and priests that conducted them returned, and a moment later the hangman was summoned to make the preliminary preparations for the hanging of Packenham and Nolan. As soon as these were completed, the hangman returned to his place under the gallows, and in a few moments Packenham and Nolan were led out en route to the scaffold. The sheriff and under sheriff led the way, while the condemned were flanked on one side by a priest and on the other by an officer.

They walked with a firm step, but their faces wore an anxious expression. Both men looked around as they walked to the gallows, glancing from one reporter to another as though huugrily searching for a familiar face. They had only about forty feet to go and were soon placed under the cross beam. Both had already been pinioned and the black caps were on their heads ready to be drawn over their faces and the nooses were about their necks.

The men had emerged from the prison at 6:48, and two minutes later the nooses were adjusted, the black caps drawn and the rope holding the weight was cut. In a twinkling the bodies of the two murderers shot up into the air, a distance of about four feet and fell back to within two feet of the ground. The struggles of the men were very feeble and it was evident that their necks had been broken. Packenham died in seven minutes, while Nolan survived a minute longer. They were allowed to hang some thirty minutes before being cut down and placed in the coffins provided for the remains.

The most moving scene about this hanging was the awful expression upon the faces of the men as they took places under the gallows. Nolan's head hung down, his lips quivered, and for a moment he looked as though he would collapse. He quickly recovered himself, however, and although his lips trembled there was a regular motion, which showed that he was repeating a prayer. Packenham was also evidently praying. A priest stood by each of the men. Both the condemned were staring fixedly ahead at the bare wall of the prison when the caps were drawn.

The knot of the noose about Nolan's neck slipped a little to the back. A slight hemmorhage was subsequently noticed at the back of the neck and gradually the blood trickled down over the shirt collar. It was supposed that the noose had cut the skin as it tightened, but one of the attending physicians said it was merely due to the extreme tension on a specific sore which had been on the neck for some time, the result of a disease from which Nolan was suffering.

The bodies were finally cut down after hanging a little over a half hour, and placed in coffins and turned over to their friends. Both men were in their coffins within fifty minutes of the time when they marched out to the gallows. When their caps were removed, Nolan's face showed the greater contortion, although the eyes and mouth of Packenham were partly open. Nolan's eyes were staring wide open and his face wore a horrible expression.

THE SECOND EXECUTION.

Almost on the stroke of 7 o'clock, Lewis and Carolin came out from the boys' prison, whither they had been taken when their companions went out to die. The arrangements for their executions were in every detail the same as those on the other side of the prison, except that Carolin and Lewis were given a less weight than the first two. When they marched into sight of the gallows Carolin turned pale and lightly clutched the hand of the priest by his side. He looked stright ahead while he puffed hard at a half-smoked cigar.

In strong contrast to the demeanor of the German was the manner in which the negro, Lewis, approached his fate. His face beamed with smiles and he shook hands right and left with several members of the death watch, bidding them "good-bye" in cheerful tones. In fact, he seemed to consider his hanging as the crowning honor of his life. Suddenly Carolin relinquished the crucifix, and, moving his pinioned hands, began to jabber excitedly in German, speaking so rapidly that his words could scarcely be caught. As nearly as could be understood, this is what he meant to say:

"I die an innocent man, G—d d—m it. I did not do this thing."

The three priests in attendance looked shocked, but made no reply to the dying man's exclamation.

Lewis scanned Carolin contemptiously and remarked, in the manner and with the accent of the typical Bowery tough:

"Ah, wat's der matter wid ye? Die like a man."

With these words he curled his lip and spat, to accent his contempt.

"I will die like a man," exclaimed Carolin excitedly, "but I'll die like an innocent man."

He was still mumbling, when Hangman Atkinson black-capped him, while the assistant drew the cap over the head of Lewis. Then Atkinson gave the three rap signal on the partition which concealed the actual executioner, and with a crash that must have been heard all over the prison, the latter severed the rope. Down came the weight with a bang and the two unfortunates were hurled into eternity. It was 7:03 a. m. when the drop fell, and the whole scene described occupied but a couple of minutes.

Both men sustained fractures of the cervical vertebra and their death was certainly painless, though to the unskilled observor this did not seem to be the case. Carolin's hands twisted and twitched, growing darker in color. His whole body was agitated once or twice by muscular spasms and then hung very still. It was not so with Lewis, who, to all appearances died hard. He gasped painfully and wriggled violently. He strained at the fetters and kicked off his slippers. Though his struggles were much more violent and prolonged than Carolin's, his pulse was not so rapid.

He was undoubtedly dead to sensibility in a twinkling, but being a strong man, the action of his muscles accounted for his struggles. Lewis was dead in six minutes, and Carolin in four, but the bodies were allowed to hang until 7:35. The removal of the cap revealed Lewis' face as placid as if he had died in bed.

HISTORY OF THEIR CRIMES.

Patrick Packenham, the oldest of the four murderers, was about sixty years of age. He murdered his wife, by cutting her throat, because she refused to give money to him with which to buy liquor.

Jack Lewis, the colored murderer, killed Alice Jackson, a mulatto, on July 17, 1888, because she would no longer live with him.

Ferdinand Carolin was a German; he murdered his wife at their rooms, 47 Stanton street. His wife was an Irish woman. He murdered her in a most brutal manner. They were very poor.

James Nolan murdered Emma Buch, who had left her husband to lead a life of shame. She had met Nolan and lived with him for a while, but finally told him to leave her. He threatened her when she wanted to rid herself of him. She locked him out the next night. The next day he called to see her. As she came down the stairs, he pulled out a pistol and fired at her.

FUNERAL OF MRS. HAMILTON.

The Last Sad Rites Performed by Friends Appreciative of Her Great Worth.

The remains of Mrs. Allen Hamilton were consigned to the grave this afternoon and now rest by the side of her illustrious husband under the shadow of the tall white shaft that marks the family lot at beautiful Lindenwood.

The funeral took place at 2 o'clock, from the Hamilton mansion, where the good lady had for years dispensed hospitality. The coffin lay in the family dining room, and the dead face was not to be seen by any but the immediate relatives. The spacious rooms were well filled by friends, members of the older families of Fort Wayne, who had known Mrs. Hamilton longest, being conspicuous for their number.

Among relatives from other places in attendance were Mrs. Hamilton's brother and sister, Judge W. S. Holman and Mrs. Lorin Stratton, of Aurora, Ind., Judge Holman's family, and Judges Masterson, of Carrollton, Ky., and Collins, of Columbia City, Ind., cousins of deceased.

Impressive services were conducted by Rev. D. W. Moffatt, D. D., pastor of the First Presbyterian church. The pall-bearers were Judges Joseph Brackenridge and John Morris, Hon. Franklin P. Randall, Dr. John S. Irwin, John Cochrane, John M. Miller, W. H. Hoffman, and J. F. Wm. Meyer.

The procession of carriages to Lindenwood was notable for its length and for the distinguished character of those who showed their appreciation of the departed lady's high worth to the community.

"Blessings she is: God made her so:
And deeds of week-day holiness
Fall from her noiseless as the snow:
Nor hath she ever chanced to know
That aught were easier than to bless."

THREE WRECKS.

A Frightful Calamity on the B. and O.—Barnum's Circus Wrecked—A Tennessee Horror.

PARKERSBURG, W. Va., Aug. 23.—An eastbound special train, with the officials of the Baltimore and Ohio road, ran into an accommodation train at Petrolia, twelve miles east of here, shortly before noon. Three people were killed outright and sixteen frightfully injured. Twelve doctors left here for the scene.

WATERTOWN, N. Y., Aug. 23.—Barnum and Bailey's circus train met with a serious accident near Pottsdam last night. An axle broke on the second train, derailing six cars and telescoping two more, crushing everything in them. Thirty ring horses, one of the chariot teams, and two camels were killed. The loss is estimated at $40,000.

KNOXVILLE, Tenn., Aug. 23.—A horrible wreck occurred on the Knoxville, Cumberland Gap and Louisville railroad, at Flat Gap creek, twenty-two miles from here yesterday. Three persons were killed and a score injured.

A SOUR QUESTION.

Dr. T. J. Dills Tells What the State Board of Health is Doing.

Dr. T. J. Dills has returned from Indianapolis, where he attended a meeting of the state board of health.

"We looked into the evil of adulterated vinegar," said he, "and find that in some cases it contains vile and poisonous ingredients."

"Do you think any such vinegar is sold in this city?" a SENTINEL reporter asked.

"It is reasonable to think so," said he, "because a good deal of our vinegar is procured from the same manufacturers that furnish the parties whose goods were examined."

The matter will be investigated.

Miss May Fowler, of Chicago, who has been visiting her aunt, Mrs. D. Raidy, wife of Engineer David Raidy, of No. 20 Bass street, leaves for her home to-morrow.

"If you want to get goods cheap, and know what you are getting, go to Original Pete's in this city," said a well known young man this morning.

"I always go there to buy my clothes and everthing I need in the Gent's Furnishing Line, and I'll tell you why: Original Pete not only sells goods cheaper than any other firm in the city, but you can also rely on what he says. I think it is the best place to deal. I have patronized him for years, and I have always been suited in every respect."

THE statisticians of the Pennsylvania weather service have calculated the rainfall of that state during the summer and that if gathered in one place it would form a lake "1,000 miles square" and thirty-five feet deep. During the three days of the Johnstown flood nearly 7,000,000,000 tons of water fell upon the mountains of Northern Pennsylvania.

A BITTER warfare is being waged at Lafayette, Ind., by the city authorities against the saloon element. The city license has been raised to $250 and a vigilant watch is being made over the violators of the 11 o'clock and Sunday laws. Yesterday Fred Bergman, a saloon keeper, was fined by the mayor for eight violations of the Sunday law, the fines aggregating $200.

"GO WEST, young man," was Horace Greeley's advice. "Come west," is our advice to those who have the determining of the location of the world's fair. While Washington and St. Louis are figure heads in the contest, the real fight is between New York and Chicago and we favor Chicago with all the might there is in us. It is the metropolis of the great and growing west and is more accessible to nine-tenths of the people of this country who will wish to attend this great exposition. Chicago will capture the prize, and she ought to.

THE SOLDIERS' MONUMENT.

Of Indiana's monument it can be said that it will be the costliest public memorial by a state to commemorate the deeds of her citizens, who made it possible to perpetuate that accomplished by the forefathers, in whose memory Beacon Hill and other monuments have been erected. There is a soldiers' monument at Gettysburg (completed in 1869), but it was built largely by individuals, and is not comparable with the Indiana monument.

The monument will not only be the second highest monument in the world, but it will be the twenty-second highest structure of any kind in existence. In the record of high monuments and towers it will have a place between New York Trinity church, with a height of 284 feet, and the Column of Delphi, Hindostan, height 262 feet.

The monument will be a square column, with a cap and base. The platform at the top of the shaft will be 220 feet above the earth, and will be reached by a spiral stairway and elevators. The lantern, rising from this, will bear a bronze statue of Victory, on which will be a wreath to be lighted electrically at night. Just below the top of the shaft will be a bronze astragal bearing the dates 1861, 1862, 1863 and 1864 on the several sides of the monument, which will be lighted at night. Midway of the structure will be a second bronze astragal, emblematic of the navy, and further down a third astragal of bronze, representing the army. On the east and west side will be sculptured groups, emblematic of war and peace, while upon subordinate pedestals, at the entrance to the terrace, will be placed bonze groups of statuary, representing the infantry, artillery, cavalry and navy. On the east and west side of the terrace there will be cascade fountains, while on the north and south sides there will be wide steps of stone, seventy feet in length, leading to the platform of the terrace, and from which the interior will be reached by bronze doors. Above these doors will be placed large tablets, to bear inscriptions commemorative of the part borne by the counties of the state in the war for the union. Directly above these tablets will be the inscription of dedication: "To Indiana's Silent Victors."

When the base of the monument, with terraces, has been completed, it will cover nearly all of Circle Park. The diameter of the circle is 192 feet, and the diameter of the foundation and terrace will be 110 feet. The terrace will be eleven feet high.

It is the intention of the monument commissioners, with the assistance of the city, to pave with asphalt all of Circle street after the monument is completed. Between the pavement and the outer edge of the park a stone wall will be laid, and between this walk and the outer edge of the terrace, natural ornaments will be planted.

When the whole is completed, Morton's monument, which formerly stood in the center of the circle, will be given some position beneath the great monument, the exact place to be determined by the architect and commissioners.

A Dream of Fair Women.

Tennyson, in his exquisite poem, dreams of a long procession of lovely women of ages past. This is all very well, but the laureate would have done the world a greater service if he had only told the women of the present how they could improve their health and enhance their charms. This he might easily have done by recommending the use of Dr. Pierce's Favorite Prescription. Health is the best friend of beauty, and the innumerable ills to which women are peculiarly subject, its worst enemies. Long experience has proven that the health of womankind and the "Favorite Prescription" walk hand in hand and are inseparable. It is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money will be refunded. This guarantee has been printed on the bottle wrapper, and faithfully carried out for many years.

Mr. J. Heidenrich has resigned his position with the Sons-of-Rest and has accepted a position with Mr. James Fox.

Better Late Than Never!

"Don't put off until to-morrow what can and should be done to-day," is wise. If you have never used SOZODONT for your teeth, make a bee-line to the druggist and get a bottle and begin to use it at once. "Verb, sap."

People in general should know what's best to do in case of a sudden attack of bowel complaint. It acts quickly, can always be depended upon and is pleasant to take. For sale by Geo. H. Loesch.

A gasoline stove of Mr. D. J. Flock, at 142 Holman street, exploded yesterday morning. The room was filled with smoke and but for the prompt action of the parties a destructive fire would have ensued. Mrs. Flock, who was in the room at the time, had a narrow escape.

He came from Massachusetts directly across the plains, bringing with him a frame house, which he erected in Sacramento. It was the first frame house built there. He afterward sold it to C. P. Huntington. Nye was a wagon maker and at one time a wealthy man. But he lost all he had.

"For this relief, much thanks," Francisco's remark to Bernardo in the first scene of Hamlet was never understood by critics until the explanation was made that Bernie had just handed him a bottle of Pond's Extract which Frankie knew how to appreciate, having suffered from burns, bites, stings, colds, catarrh and various other ailments, which he knew the P. LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them?

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is exactly as represented. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

The Olds wheel works are closed down to-day for repairs.

Superintendent Stevens, of the Wabash, is in the city to-day.

Henry Sloat, of the Pittsburg shops, is recovering from a severe spell of sickness.

The Pittsburg road took six car loads of excursionists from Monroeville to Warsaw yesterday.

A. L. Woodworth, assistant foreman of the Pittsburg blacksmith shops, has sold his fine family horse.

The excursion of the Brotherhood of Locomotive Firemen to Rome City yesterday was a delightful affair.

A sick woman was taken from No. 8, passenger train on the Pittsburg road, last night, to the St. Joe hospital.

The Bass works are employing a number of new men in their yards. The establishment is kept very busy now.

Miles Highbargin, of Rome City, has secured a position at the electric light works and will move his family to this city.

The Pittsburg track was blockaded yesterday afternoon for four hours on account of a freight wreck at Salem, Ohio.

Capt. Wm. Bradley will leave for the west in a day or so to take his new position on the Atchison, Topeka and Santa Fe road.

David Cray, the assistant engineer at the Jenney electric light works, rumor has it, will in the near future wed a Churubusco young lady.

Clerk John Brown, who looks after the castings for the Pittsburg works, tells us the Bass works are crowded with orders for them from his establishment, and can hardly furnish them rapidly enough at present.

The president, upon the recommendation of the civil service commission, has approved an amendment to the rule governing the railway mail service, excepting from examination clerks employed in that city exclusively as porters in handling mail matter in bulk, in sacks or pouches and not otherwise, and clerks employed exclusively on steamboats.

Railroad earnings, so far as reported, without exception, show an increase in the second week of August, over those of the corresponding week of 1888. The Wabash system comes up with an increase this year of $25,192, the Louisville and Nashville an increase of $45,805, and the Lake Erie and Western an increase of $6,497.

About 5 o'clock yesterday evening quite a bad accident occurred to George Gleason, at the east yards. He attempted to step upon the caboose of a running train, when he was thrown to the ground and suffered a fractured leg, besides other severe injuries. He was taken to the St. Joseph hospital where his wants were attended to.

Last Friday George Schrider, section foreman on the Pittsburg, Fort Wayne and Chicago road, at Lima, O., left for parts unknown, leaving his wife and four small children in destitue circumstances. Mrs. George Hugiberger, wife of a neighbor, left her home on the same day, ostensibly for a visit with her parents at Preston. She was to return Monday, and, not doing so, her husband waited until Wednesday, when he went to Preston, and learned that she had not been there. Upon investigation he learned that she and Schrider left town together, and had their baggage checked for Chicago. She leaves three small children. Schrider leaves several hundred dollars of indebtedness.

The Baltimore and Ohio limited express was drawn from Washington to Philadelphia Wednesday by an engine which used coke for its heat and steam generating purposes. The train leaves Washington every morning at 8 o'clock, making the run to Philadelphia in three hours. There were several officials of the company aboard the engine, and as this was to be regarded as a test of the qualities of soft over those of hard coal for such purposes, a great deal of interest was taken in the trip. The train entered the depot at Philadelphia three minutes ahead of time. For a long time the officials of the Baltimore and Ohio Railroad company have been trying to devise some means by which they could run their trains so that cinders would not fly into passengers' eyes. Experiments were made with hard coal, but they were not satisfactory. Coke was suggested and was tried with some misgivings. At first it was not successful, but this was found to be due to the inexperience of the firemen, who did not know how to feed a coke fire. Wednesday's trip was the result which is regarded as marking a revolution in the use of fuel for passenger locomotives.

WAKE WAS GREATER.

A Large Concourse of People Attend the Obsequies of the Late Matthias Thomas.

This morning at 8:30 o'clock from the undertaking rooms of J. C. Peltier, and at 9 o'clock from St. Mary's Catholic church, occurred the funeral services over the body of the late Matthias Thomas, the young man who met an untimely death at the Centlivre brewery by the falling of a wall.

Although the deceased had no relatives whose whereabouts were known he had friends that were legion and they turned out on this sad occasion.

The funeral was conducted under the auspices of the German military company, which organization was headed by the First Regiment band.

The Young Men's sodality of St. Mary's church and the employes of Centlivre's brewery, were at the service. The interment was in the Catholic cemetery.

Thus a young man was not forsaken when his own kin was not known, for he has been tenderly cared for and laid away by friends whose fidelity cannot be extolled too high.

CORPORAL KERR.

The Young Cadet to Be Reinstated by the Court That Sentenced Him.

The dissension between the Fort Wayne Rifles and the members of the state court martial by reason of his court martial and discharge from the service at the recent military encampment are apt to be bridged over so that harmony will exist as of yore.

The Rifles recently held a business meeting when they prepared a petition for Kerr's reinstatement, giving absolute proof that the action of young Kerr was through ignorance caused by a misunderstanding of orders. This was submitted to Captain Kercheval, of Indianapolis, who was judge of the court martial.

He has appended his signature to a paper asking for the reinstatement of Kerr to his old place, and other members of the board will do the same thing.

Hence young Kerr will be relieved of the military dishonor so unjustly thrust upon him.

Get rid of that tired feeling as quick as possible. Take Hood's Sarsaparilla, which gives strength, a good appetite, and health.

Owing to the serious illness of Mrs. Carson, Kit Carson is unable to attend to his duties as mail carrier. Augustus LeGraw is carrying his route for him.

Interested People.

Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

Any defective service on the part of the company will be promptly attended to, upon notice to the omee. A damper in the stove pipe is necessary to insure successful service.

All bills are due on the 1st day of the month, and payable in advance AT THE OFFICE OF THE COMPANY. Ten days' grace is allowed to patrons who pay promptly, but BILLS MUST BE PAID ON OR BEFORE THE 10TH OF EACH MONTH TO SAVE DISCOUNT. ☞ The mixer is the bulb through which the gas passes to be mixed with air. A No. 5 mixer is the size generally used for domestic purposes and will supply sufficient gas for heating equal to an ordinary hard coal stove, burning from 4½ to 5 tons of coal during the season. No. 7 and upward are for hot air furnaces and steam heating apparatus.

No. 5 mixer has 4-32 opening.
No. 7 mixer has 5-32 opening.
No. 9 mixer has 6-33 opening.

Special attention is called to the annual rates, which are much below the cost of coal, wood or gasoline.

Annual Contracts are payable in six monthly installments, commencing with the date of connection, between November 1 and May 1, and continuing to April 1, and commencing again November 1 if necessary to complete six monthly installments. If connections under Annual Contracts are made after May 1, but previous to November 1, then such monthly payments shall begin November 1 and continue to April 1.

Any consumer using $40.00 worth of gas per year according to above schedule shall have the right to require gas to be furnished by meter measurement instead of schedule rates; in which case the company shall have the right to charge ten (10) cents per 1,000 feet. SWUNG INTO ETERNITY!

Four Murderers Pay the Penalty of Their Bloody Crimes on the Scaffold at New York.

NEW YORK, Aug. 23.—For the first time in the history of the Tombs, four murderers expiated their crimes on the scaffold within a few minutes of each other this morning.

The situation of the gallows, on each of which two men were hanged, was such that an interval of five minutes was necessary between the two executions. Though the structures were a considerable distance apart, the noise of the drop of the gallows which first sent Packenham and Nolan out of the world must have been plainly heard by Lewis and Carolin.

The four men went into eternity firm in the belief that their salvation was in God.

The scene in the little chapel, where mass was said this morning, and the subsequent farewells between the men, were very impressive. The two Catholics priests, who administered consolation to the men during their last hours, stayed with them until the last minute.

Preparations for the conducting of the first of the men to the gallows were commenced about 6:30. At 6:35, the jury, composed entirely of newspaper men, was placed in position. At 6:44, Carolin and Lewis were taken across the prison yard to the boys' prison, where they were pinioned. Carolin was puffing hard at a big cigar.

As soon as Lewis and Carolin had been transferred, the sheriffs and priests that conducted them returned, and a moment later the hangman was summoned to make the preliminary preparations for the hanging of Packenham and Nolan. As soon as these were completed, the hangman returned to his place under the gallows, and in a few moments Packenham and Nolan were led out en route to the scaffold. The sheriff and under sheriff led the way, while the condemned were flanked on one side by a priest and on the other by an officer.

They walked with a firm step, but their faces wore an anxious expression. Both men looked around as they walked to the gallows, glancing from one reporter to another as though hungrily searching for a familiar face. They had only about forty feet to go and were soon placed under the cross beam. Both had already been pinioned and the black caps were on their heads ready to be drawn over their faces and the nooses were about their necks.

The men had emerged from the prison at 6:48, and two minutes later the nooses were adjusted, the black caps drawn and the rope holding the weight was cut. In a twinkling the bodies of the two murderers shot up into the air, a distance of about four feet and fell back to within two feet of the ground. The struggles of the men were very feeble and it was evident that their necks had been broken. Packenham died in seven minutes, while Nolan survived a minute longer. They were allowed to hang some thirty minutes before being cut down and placed in the coffins provided for the remains.

The most moving scene about this hanging was the awful expression upon the faces of the men as they took places under the gallows. Nolan's head hung down, his lips quivered, and for a moment he looked as though he would collapse. He quickly recovered himself, however, and although his lips trembled there was a regular motion, which showed that he was repeating a prayer. Packenham was also evidently praying. A priest stood by each of the men. Both the condemned were staring fixedly ahead at the bare wall of the prison when the caps were drawn.

The knot of the noose about Nolan's neck slipped a little to the back. A slight hemmorhage was subsequently noticed at the back of the neck and gradually the blood trickled down over the shirt collar. It was supposed that the noose had cut the skin as it tightened, but one of the attending physicians said it was merely due to the extreme tension on a specific sore which had been on the neck for some time, the result of a disease from which Nolan was suffering.

The bodies were finally cut down after hanging a little over a half hour, and placed in coffins and turned over to their friends. Both men were in their coffins within fifty minutes of the time when they marched out to the gallows. When their caps were removed, Nolan's face showed the greater contortion, although the eyes and mouth of Packenham were partly open. Nolan's eyes were staring wide open and his face wore a horrible expression.

THE SECOND EXECUTION.

Almost on the stroke of 7 o'clock, Lewis and Carolin came out from the boys' prison, whither they had been taken when their companions went out to die. The arrangements for their executions were in every detail the same as those on the other side of the prison, except that Carolin and Lewis were given a less weight than the first two. When they marched into sight of the gallows Carolin turned pale and lightly clutched the hand of the priest by his side. He looked straight ahead while he puffed hard at a half-smoked cigar.

In strong contrast to the demeanor of the German was the manner in which the negro, Lewis, approached his fate. His face beamed with smiles and he shook hands right and left with several members of the death watch, bidding them "good-bye" in cheerful tones. In fact, he seemed to consider his hanging as the crowning honor of his life. Suddenly Carolin relinquished the crucifix, and, moving his pinioned hands, began to jabber excitedly in German, speaking so rapidly that his words could scarcely be caught. As nearly as could be understood, this is what he meant to say:

"I die an innocent man, G—d d—m it. I did not do this thing."

The three priests in attendance looked shocked, but made no reply to the dying man's exclamation.

Lewis scanned Carolin contemptuously and remarked, in the manner and with the accent of the typical Bowery tough:

"Ah, wat's der matter wid ye? Die like a man."

With these words he curled his lip and spat, to accent his contempt.

"I will die like a man," exclaimed Carolin excitedly, "but I'll die like an innocent man."

He was still mumbling, when Hangman Atkinson black-capped him, while the assistant drew the cap over the head of Lewis. Then Atkinson gave the three rap signal on the partition which concealed the actual executioner, and with a crash that must have been heard all over the prison, the latter severed the rope. Down came the weight with a bang and the two unfortunates were hurled into eternity. It was 7:03 a. m. when the drop fell, and the whole scene described occupied but a couple of minutes.

Both men sustained fractures of the cervical vertebra and their death was certainly painless, though to the unskilled observer this did not seem to be the case. Carolin's hands twisted and twitched, growing darker in color. His whole body was agitated once or twice by muscular spasms and then hung very still. It was not so with Lewis, who, to all appearances died hard. He gasped painfully and wriggled violently. He strained at the fetters and kicked off his slippers. Though his struggles were much more violent and prolonged than Carolin's, his pulse was not so rapid.

He was undoubtedly dead to sensibility in a twinkling, but being a strong man, the action of his muscles accounted for his struggles. Lewis was dead in six minutes, and Carolin in four, but the bodies were allowed to hang until 7:35. The removal of the cap revealed Lewis' face as placid as if he had died in bed.

HISTORY OF THEIR CRIMES.

Patrick Packenham, the oldest of the four murderers, was about sixty years of age. He murdered his wife, by cutting her throat, because she refused to give money to him with which to buy liquor.

Jack Lewis, the colored murderer, killed Alice Jackson, a mulatto, on July 17, 1888, because she would no longer live with him.

Ferdinand Carolin was a German; he murdered his wife at their rooms, 47 Stanton street. His wife was an Irish woman. He murdered her in a most brutal manner. They were very poor.

James Nolan murdered Emma Emch, who had left her husband to lead a life of shame. She had met Nolan and lived with him for a while, but finally told him to leave her. He threatened her when she wanted to rid herself of him. She locked him out the next night. The next day he called to see her. As she came down the stairs, he pulled out a pistol and fired at her.

FUNERAL OF MRS. HAMILTON.

The Last Sad Rites Performed by Friends Appreciative of Her Great Worth.

The remains of Mrs. Allen Hamilton were consigned to the grave this afternoon and now rest by the side of her illustrious husband under the shadow of the tall white shaft that marks the family lot at beautiful Lindenwood.

The funeral took place at 2 o'clock, from the Hamilton mansion, where the good lady had for years dispensed hospitality. The coffin lay in the family dining room, and the dead face was not to be seen by any but the immediate relatives. The spacious rooms were well filled by friends, members of the older families of Fort Wayne, who had known Mrs. Hamilton longest, being conspicuous for their number.

Among relatives from other places in attendance were Mrs. Hamilton's brother and sister, Judge W. S. Holman and Mrs. Lorin Stratton, of Aurora, Ind., Judge Holman's family, and Judges Masterson, of Carrollton, Ky., and Collins, of Columbia City, Ind., cousins of deceased.

Impressive services were conducted by Rev. D. W. Moffatt, D. D., pastor of the First Presbyterian church. The pall-bearers were Judges Joseph Brackenridge and John Morris, Hon. Franklin P. Randall, Dr. John S. Irwin, John Cochrane, John M. Miller, W. H. Hoffman, and J. F. Wm. Meyer.

The procession of carriages to Lindenwood was notable for its length and for the distinguished character of those who showed their appreciation of the departed lady's high worth to the community.

"Blessings she in God inside her saw:
And deeds of week-day holiness
Fell from her noiseless as the snow:
Nor hath she ever changed to know
That aught were easier than to bless."

A SOUR QUESTION.

Dr. T. J. Dills Tells What the State Board of Health is Doing.

Dr. T. J. Dills has returned from Indianapolis, where he attended a meeting of the state board of health.

"We looked into the evil of adulterated vinegar," said he, "and find that in some cases it contains vile and poisonous ingredients."

"Do you think any such vinegar is sold in this city?" a SENTINEL reporter asked.

"It is reasonable to think so," said he, "because a good deal of our vinegar is procured from the same manufacturers that furnish the parties whose goods were examined."

The matter will be investigated.

"If you want to get goods cheap, and know what you are getting, go to Original Pete's in this city," said a well known young man this morning.

"I always go there to buy my clothes and everthing I need in the Gent's Furnishing Line, and I'll tell you why: Original Pete not only sells goods cheaper than any other firm in the city, but you can also rely on what he says. I think it is the best place to deal. I have patronized him for years, and I have always been suited in every respect."

A BITTER warfare is being waged at Lafayette, Ind., by the city authorities against the saloon element. The city license has been raised to $250 and a vigilant watch is being made over the violators of the 11 o'clock and Sunday laws. "GO WEST, young man," was Horace Greeley's advice. "Come west," is our advice to those who have the determining of the location of the world's fair. While Washington and St. Louis are figure heads in the contest, the real fight is between New York and Chicago and we favor Chicago with all the might there is in us. It is the metropolis of the great and growing west and is more accessible to nine-tenths of the people of this country who will wish to attend this great exposition. Chicago will capture the prize, and she ought to.

THE SOLDIERS' MONUMENT.

Of Indiana's monument it can be said that it will be the costliest public memorial by a state to commemorate the deeds of her citizens, who made it possible to perpetuate that accomplished by the forefathers, in whose memory Beacon Hill and other monuments have been erected. There is a soldiers' monument at Gettysburg (completed in 1869), but it was built largely by individuals, and is not comparable with the Indiana monument.

The monument will not only be the second highest monument in the world, but it will be the twenty-second highest structure of any kind in existence. In the record of high monuments and towers it will have a place between New York Trinity church, with a height of 284 feet, and the Column of Delphi, Hindostan, height 262 feet.

The monument will be a square column, with a cap and base. The platform at the top of the shaft will be 220 feet above the earth, and will be reached by a spiral stairway and elevators. The lantern, rising from this, will bear a bronze statue of Victory, on which will be a wreath to be lighted electrically at night. Just below the top of the shaft will be a bronze astragal bearing the dates 1861, 1862, 1863 and 1864 on the several sides of the monument, which will be lighted at night. Midway of the structure will be a second bronze astragal, emblematic of the navy, and further down a third astragal of bronze, representing the army. On the east and west side will be sculptured groups, emblematic of war and peace, while upon subordinate pedestals, at the entrance to the terrace, will be placed bonze groups of statuary, representing the infantry, artillery, cavalry and navy. On the east and west side of the terrace there will be cascade fountains, while on the north and south sides there will be wide steps of stone, seventy feet in length, leading to the platform of the terrace, and from which the interior will be reached by bronze doors. Above these doors will be placed large tablets, to bear inscriptions commemorative of the part borne by the counties of the state in the war for the union. Directly above these tablets will be the inscription of dedication: "To Indiana's Silent Victors."

When the base of the monument, with terraces, has been completed, it will cover nearly all of Circle Park. The diameter of the circle is 192 feet, and the diameter of the foundation and terrace will be 110 feet. The terrace will be eleven feet high.

It is the intention of the monument commissioners, with the assistance of the city, to pave with asphalt all of Circle street after the monument is completed. Between the pavement and the outer edge of the park a stone wall will be laid; and between this walk and the outer edge of the terrace, natural ornaments will be planted.

When the whole is completed, Morton's monument, which formerly stood in the center of the circle, will be given some position beneath the great monument, the exact place to be determined by the architect and commissioners.

The sovereign grand lodge will then be in session and the Patriarchs Militant, the uniformed portion of the order, will be there in numbers estimated at from 6,000 to 10,000. It is thought that the procession will contain 30,000 Odd Fellows in line. The Daughters of Rebekah will also be in session and this meeting will attract many ladies. The drill of the uniformed divisions, for which prizes aggregating $7,000 will be offered, will be an important feature of the meeting. The Rome City correspondent of the Kendallville *News* says: "Our Sunday school Sunday last was greatly aided by the kind people who were spending their Sabbath in their comfortable cottage homes on the banks of Sylvan lake by their presence in our Sunday school. We noticed John Mitchell and family, of Kendallville; Judge A. A. Chapin, of Fort Wayne, and others, strangers to us. Through their kind ministration our Sunday school passed off very nicely. Mrs. Shultz, Willie Mitchell and Judge Chapin were chosen teachers to assist the young in the study of the morning lesson."

A Dream of Fair Women.

Tennyson, in his exquisite poem, dreams of a long procession of lovely women of ages past. This is all very well, but the laureate would have done the world a greater service if he had only told the women of the present how they could improve their health and enhance their charms. This he might easily have done by recommending the use of Dr. Pierce's Favorite Prescription. Health is the best friend of beauty, and the innumerable ills to which women are peculiarly subject, its worst enemies. Long experience has proven that the health of womankind and the "Favorite Prescription" walk hand in hand and are inseparable. It is the only medicine for women, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money will be refunded. This guarantee has been printed on the bottle wrapper, and faithfully carried out for many years.

Mr. J. Heidenrich has resigned his position with the Sons-of-Rest and has accepted a position with Mr. James Fox.

Better Late Than Never!

"Don't put off until to-morrow what can and should be done to-day," is wise. If you have never used SOZODONT for your teeth, make a beeline to the druggist and get a bottle and begin to use it at once. "Verb. sap."

People in general should know what's best to do in case of a sudden attack of bowel complaint. It is a well established fact that prompt relief may be had in any case of colic, cholera morbus, dysentery or diarrhoea by giving a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It acts quickly, can always be depended upon and is pleasant to take. For sale by Geo. H. Lousch.

The Charani club, a new social organization that meets at Anderson's hall has been officered as follows: Dull Sthair, president; Wm. Rops, secretary; Wm. Woelkinig, treasurer. The executive committee consists of John Alter, William Linderman, George Weible, Ed. Gruber, Henry Tierman, Joe Roberts and E. Gaffin.

A gasoline stove of Mr. D. J. Flock, at 142 Holman street, exploded yesterday morning. The room was filled with smoke and but for the prompt action of the parties a destructive fire would have ensued. Mrs. Flock, who was in the room at the time, had a narrow escape.

Mr. John Bleekman, private secretary to General Superintendent Hays, of the Wabash, at St. Louis is in the city and will remain over Sunday. Mr. Bleekman has just recovered from a serious sickness.

Peculiar

In the combination, proportion, and preparation of its ingredients, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in its good name at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained, Hood's Sarsaparilla is the most successful medicine for purifying the blood, giving strength, and creating an appetite.

A Noted Miner Dead.

CHICO, Cal., Aug. 22.—Levy Nye, a forty-niner, and an old pioneer of this city, died yesterday, aged 74. He came from Massachusetts directly across the plains, bringing with him a frame house, which he erected in Sacramento. It was the first frame house built there. He afterward sold it to C. P. Huntington. Nye was a wagon maker and at one time a wealthy man. But he lost all he had.

"For this relief, much thanks," Francisco's remark to Bernardo in the first scene of Hamlet was never understood by critics until the explanation was made that Bernie had just handed him a bottle of Fond's Extract which Frankin knew how to appreciate, having suffered from burns, bites, stings, colds, catarrh and various other ailments, which he knew the P. E. would relieve.

LONG LIFE.

There is nothing in the world more generally desired than long life, yet the majority of people put off caring for their health—not because they are really careless, but because we live our lives at such a pace we have not time to give the subject sufficient thought until we receive a reminder in the shape of a severe illness.

Then, too, we are constantly bewildered by the various schools of medicine, and the physicians who represent them, and often blunder in our choice of a doctor.

If people only knew that the very best health-keeper, life-preserver and disease preventer that has yet been discovered, is simmered down into a concentrated and very palatable form in the shape of New Style Pleasant Taste Vinegar Bitters, they would not hesitate a moment to try it.

But they do not know. How can they know, when so many not only worthless, but positively injurious drugs are constantly flooding the market under various names and guises, that the New Style Vinegar Bitters is as bad as any of them!

They do not know, of course, unless they have the courage to try the New Style. It straightens out a tangled-up system in a very short while, and those who buy it once buy it always.

Why don't you try it, reader? It is sent out by a responsible house, and is cheaply compounded. It costs but a dollar for a very large bottle. Try it once and you will never be so glad of anything in your life. Your druggist may not have it, but he will order it for you. Be sure it says New Style Pleasant Taste on carton and bottle before you take it. Try it, and you will feel happier than if you had found a gold mine, for it really is a mine—of health.

Free from alcohol and opium; composed of expensive herbs and roots, with fine, delicate flavoring.

UNEVENTFUL FRIDAY.

While Contributing a Big Budget of News From the Busy Centers, Sends Up Nothing Startling.

The Wabash employes excurt to Put-in-Bay to-morrow.

The Olds wheel works are closed down to-day for repairs.

Superintendent Stevens, of the Wabash, is in the city to-day.

Henry Sloat, of the Pittsburg shops, is recovering from a severe spell of sickness.

The Pittsburg road took six car loads of excursionists from Monroeville to Warsaw yesterday.

A. L. Woodworth, assistant foreman of the Pittsburg blacksmith shops, has sold his fine family horse.

The excursion of the Brotherhood of Locomotive Firemen to Rome City yesterday was a delightful affair.

A sick woman was taken from No. 8, passenger train on the Pittsburg road, last night, to the St. Joe hospital.

The Bass works are employing a number of new men in their yards. The establishment is kept very busy now.

Miles Highbargin, of Rome City, has secured a position at the electric light works and will move his family to this city.

The Pittsburg track was blockaded yesterday afternoon for four hours on account of a freight wreck at Salem, Ohio.

Capt. Wm. Bradley will leave for the west in a day or so to take his new position on the Atchison, Topeka and Santa Fe road.

David Cray, the assistant engineer at the Jenney electric light works, rumor has it, will in the near future wed a Churubusco young lady.

Clerk John Brown, who looks after the castings for the Pittsburg works, tells us the Bass works are crowded with orders for them from his establishment, and can hardly furnish them rapidly enough at present.

The president, upon the recommendation of the civil service commission, has approved an amendment to the rule governing the railway mail service, excepting from examination clerks employed in that city exclusively as porters in handling mail matter in bulk, in sacks or pouches and not otherwise, and clerks employed exclusively on steamboats.

Railroad earnings, so far as reported, without exception, show an increase in the second week of August, over those of the corresponding week of 1888. The Wabash system comes up with an increase this year of $23,192, the Louisville and Nashville an increase of $45,-805, and the Lake Erie and Western an increase of $6,497.

About 5 o'clock yesterday evening quite a bad accident occurred to George Gleason, at the east yards. He attempted to step upon the caboose of a running train, when he was thrown to the ground and suffered a fractured leg, besides other severe injuries. He was taken to the St. Joseph hospital where his wants were attended to.

Last Friday George Schrider, section foreman on the Pittsburg, Fort Wayne and Chicago road, at Lima, O., left for parts unknown, leaving his wife and four small children in destitute circumstances. Mrs. George Hugiberger, wife of a neighbor, left her home on the same day, ostensibly for a visit with her parents at Preston. She was to return Monday, and, not doing so, her husband waited until Wednesday, when he went to Preston, and learned that she had not been there. Upon investigation he learned that she and Schrider left town together, and had their baggage checked for Chicago. She leaves three small children. Schrider leaves several hundred dollars of indebtedness.

The Baltimore and Ohio limited express was drawn from Washington to Philadelphia Wednesday by an engine which used coke for its heat and steam generating purposes. The train leaves Washington every morning at 8 o'clock, making the run to Philadelphia in three hours. There were several officials of the company aboard the engine, and as this was to be regarded as a test of the qualities of soft over those of hard coal for such purposes, a great deal of interest was taken in the trip. The train entered the depot at Philadelphia three minutes ahead of time. For a long time the officials of the Baltimore and Ohio Railroad company have been trying to devise some means by which they could run their trains so that cinders would not fly into passengers' eyes. Experiments were made with hard coal, but they were not satisfactory. Coke was suggested and was tried with some misgivings. At first it was not successful, but this was found to be due to the inexperience of the firemen, who did not know how to feed a coke fire. Wednesday's trip was the result which is regarded as marking a revolution in the use of fuel for passenger locomotives.

WITH SAD HEART.

A Large Concourse of People Attend the Obsequies of the Late Matthias Thomas.

This morning at 8:30 o'clock from the undertaking rooms of J. C. Peltier, and at 9 o'clock from St. Mary's Catholic church, occurred the funeral services over the body of the late Matthias Thomas, the young man who met an untimely death at the Centlivre brewery by the falling of a wall.

Although the deceased had no relatives whose whereabouts were known he had friends that were legion and they turned out on this sad occasion.

The funeral was conducted under the auspices of the German military company, which organization was headed by the First Regiment band.

The Young Men's sodality of St. Mary's church and the employes of Centlivre's brewery, were at the service. The interment was in the Catholic cemetery.

Thus a young man was not forsaken when his own kin was not known, for he has been tenderly cared for and laid away by friends whose fidelity cannot be extolled too high.

CORPORAL KERR.

The Young Cadet to Be Reinstated by the Court That Sentenced Him.

The dissension between the Fort Wayne Rifles and the members of the state court martial by reason of his court martial and discharge from the service at the recent military encampment are apt to be bridged over so that harmony will exist as of yore.

The Rifles recently held a business meeting when they prepared a petition for Kerr's reinstatement, giving absolute proof that the action of young Kerr was through ignorance caused by a misunderstanding of orders. This was submitted to Captain Kercheval, of Indianapolis, who was judge of the court martial.

He has appended his signature to a paper asking for the reinstatement of Kerr to his old place, and other members of the board will do the same thing.

Hence young Kerr will be relieved of the military dishonor so unjustly thrust upon him.

Get rid of that tired feeling as quick as possible. Take Hood's Sarsaparilla, which gives strength, a good appetite, and health.

Owing to the serious illness of Mrs. Carson, Kit Carson is unable to attend to his duties as mail carrier. Augustus LeGraw is carrying his route for him.

Interested People. Advertising a patent medicine in the peculiar way in which the proprietor of Kemp's Balsam for Coughs and Colds does is indeed wonderful. He authorizes all druggists to give those who call for it a sample bottle *Free*, that they may try it before purchasing. The large bottles are 50c and $1.00. We certainly would advise a trial. It may save you from consumption.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.

There was a terrible epidemic of dysentery and bloody flux in Pope County, Illinois last summer. As many as five deaths occurred in one day. Messrs. Walter Brothers, of Waltersburg, sold over 380 bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy during this epidemic, and say that they never heard of its failing in any case when the directions were followed. It was the only medicine used that did cure the worst cases. Many persons were cured by it after the doctors had given them up. 25 and 60 cent bottles for sale by Geo. H. Loesch.

All bills are due on the 1st day of the month, and payable in advance AT THE OFFICE OF THE COMPANY. Ten days' grace is allowed to patrons who pay promptly, but BILLS MUST BE PAID ON OR BEFORE THE 10TH OF EACH MONTH TO SAVE DISCOUNT. Allowing the time for discount to expire before making payment does not give an extension of time on the bill.

All applications, notices and complaints must be made at the office to insure prompt attention.

The business of the company MUST be transacted AT ITS OFFICE. If you do not clearly understand any point in this circular, call at this office and explanations will be cheerfully given.

☞ The mixer is the bulb through which the gas passes to be mixed with air. A No. 5 mixer is the size generally used for domestic purposes and will supply sufficient gas for heating equal to an ordinary hard coal stove, burning from 4½ to 5 tons of coal during the season. No. 7 and upward are for hot air furnaces and steam heating apparatus.

No. 5 mixer has 4-32 opening.
No. 7 mixer has 5-32 opening.
No. 9 mixer has 6-32 opening.

Special attention is called to the annual rates, which are much below the cost of coal, wood or gasoline.

Furnace or cook stove will be counted as one stove, and where additional fires are used they will be figured on the basis of reduction named in price list.

Annual Contracts are payable in six monthly installments, commencing with the date of connection between November 1 and May 1, and continuing to April 1, and commencing again November 1 if necessary to complete six monthly installments. If connections under Annual Contracts are made after May 1, but previous to November 1, then such monthly payments shall begin November 1 and continue to April 1.

Any consumer using $40.00 worth of gas per year according to above schedule shall have the right to require gas to be furnished by meter measurement instead of schedule rates; in which case the company shall have the right to charge ten (10) cents per 1,000 feet. Standard meters will be furnished by the company.

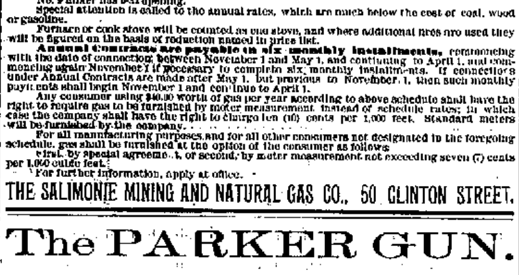

For all manufacturing purposes and for all other consumers not designated in the foregoing schedule, gas shall be furnished at the option of the consumer as follows:

First, by special agreement, or second, by meter measurement not exceeding seven (7) cents per 1,000 cubic feet.
